Kevin

Would you be able to get billing or someone to generate a list of all clients to whom I billed time this year and last year. For last year we can drop anyone before May 1 of 2016.

I need this in order to be able to screen myself off of matters involving former clients.

Thanks so much

Bill

Hi Bill,

Accounting is working this and I should have this for you later today.

You look great in the WSJ picture!

Best,
Kevin

Michael,

Thought I would check in re the billable time records I asked about. Totally understand that this is not a simple request and may take some time. The main reason I am following up is that I will need to request an extension for filing my government paperwork, if I am unable to finish it this week. The STB info is the last piece of information I need to complete things. Not a big deal if I file for the extension.

Thanks
Bill
